

Section A - Basic Information:

1. What is my diagnosis?

2. What is the prognosis without any intervention?

3. What treatment plan(s) are you offering?

Section B - Please answer this series of questions for each separate plan proposed. Interventions used concurrently count as a single plan. Interventions used in sequence (one after the other) count as separate plans.

For each plan, please use extra paper to answer Section B.

- 4a. What type of plan is this (immunotherapy, chemotherapy, radiation, surgery, lifestyle modification, monitoring only, or combination)?

- 4b. What results should I expect using this plan?

- 4c. How does this plan work?

- 4d. Please name any drugs to be used during this plan:

- 4e. Please describe all potential adverse effects:

4f. What strategies are used to address these adverse effects (this may include adjuvant therapies, or techniques to enhance selectivity toward target cells):

4g. Please describe how this therapy is administered (route, frequency, outpatient, self-administered, etc.):

4h. How soon should I expect to see results from this plan?

4i. How long will I need to maintain this plan?

4j. What is the approximate out-of-pocket expense (either total, monthly, or yearly, as applicable)?

4k. What other things might I want to consider regarding this plan?

Section C - Monitoring

5. How will my progress and health be monitored during treatment?

6. What are the associated health consequences of these monitoring tests?

7. What's the turn-around time for test results?

8. How will the results be communicated to me (email, phone call, online)?

Section D - Additional Considerations

9. Is my case being used to supply clinical data for the development or refinement of a specific drug, technique, or an overall therapeutic approach? Detail:

10. What's your "big-picture" perspective on my overall health situation?

11. This is hypothetical and NOT asking for medical advice. If you were in my situation: from 1 to 10, how certain would you be to utilize my current therapeutic plan first, before trying other options? (and what other options might you consider?)

12. I am working with a holistic health consultant to improve my overall plan for wellness. Would you like to review information about non-medical healing techniques which may be of benefit in my situation?
